Ion AmpliSeq™ Exome Certified Service Provider

The Ion AmpliSeq™ Exome Certified Service Provider program is a global network of service providers that enables any researcher to get the highest-quality exome sequencing data.

We are proud to confirm that GeneTracer Biotech has successfully completed all qualification requirements and is officially recognized as providing high-quality exome sequencing services to their customers.

As part of the certification process, GeneTracer Biotech has demonstrated that they can:

- Generate at least 30 million reads per exome using 50 ng of starting DNA
- Cover ≥88% of the exome at ≥20x read depth
- Sequence two exomes per sequencing run with a total turnaround time of two days
