

June 18 2015

To whom it may concern,

It is a great pleasure to extend a letter of recommendation to **GENETRACER BIOTECH**.

I have been working with Genetracer Biotech on a non-conventional sequencing project that has required a very active involvement of their technical staff. The close support shown by Genetracer Biotech through this time has been key for the success of the project, with the feeling of a scientific collaboration rather than a business transaction: Impeccable".

Sincerely,

Javier Ruiz Ederra.
